

Our Commitment to Get Every Bottle Back in Illinois

America's beverage companies — The Coca-Cola Company, Keurig Dr Pepper and PepsiCo — are working together to ensure our valuable plastic bottles and aluminum cans are collected, so they can be remade into new products.

We've committed \$100 million to improve recycling infrastructure, access and education in communities across the country where we can have the greatest impact. By partnering with The Recycling Partnership and Closed Loop Partners, we're leveraging our investment into \$400 million to support local recycling efforts.

\$3.5M+

provided across
5 local projects

6.7M+

more pounds of PET
plastic expected to be
recycled over 10 years

1.1M+

Illinois residents
with expanded
recycling access

2.2M+

more pounds of aluminum
expected to be recycled
over 10 years

Contamination and limited recycling capacity are major challenges in **Rockford**. Our \$225,000 investment is helping provide 50,000 households with educational materials and new upgraded curbside carts to increase materials collected.

Villa Park wanted to upgrade its recycling program to collect more recyclable materials. Our \$97,500 investment provided 6,500 households with new, upgraded curbside carts.

We invested over \$55,000 to provide 3,700 households in **LaSalle** with new and upgraded curbside recycling carts. In the first year alone, there was a 37% increase in materials collected.

Our \$3 million investment helped LRS build their **Chicago** materials recovery facility from the ground up, which serves at least 6 million residents.

Cook County wanted to transition underserved and underperforming communities to universal, cart-based curbside recycling. Our \$161,000 investment educated residents and distributed new carts to 2,700 households across three villages.
